NOTES

Melanie shared a quick note about Sharpsburg representation at the World's Columbian Expedition. St. Mary's School was present at the Pennsylvania State exhibit and showed their homework.

Leo shared some letterhead from a local firm--David and Arthur Kirk had letterhead with an image of dynamite

Malina updated the team on the progress of the National Register Nomination progress. She was able to do a small amount of research through Newspapers.com and had plans to reach out to the diocese library. Lou stated he thought he had given blueprints found at the rectory to the library and so they should be available. Melanie suggested seeing what remote access to documents could be arranged as library hours are restricted to business hours. Lou offered use of his own photographs of St. Mary's for the form.

Melanie shared copies of the Author proposal for the Arcadia history book project. Arcadia requires the author to pre-order a certain number of books. The group didn't think this would be a problem as people will naturally go to the commission to buy copies. The first print run is always 1500. The group reviewed the book proposal item by item and made edits and suggests (notated by Melanie on her copy of the proposal)

The group discussed Open Streets 2018 and having a space. There is a tent we can use, and space in Ketchup Creative gallery. Joe will get power from his apartment to the scanner that we will set up to scan photos that attendees can bring. Matt will make a photograph release form.

Melanie raised the topic of sponsoring a hole at the community Library's Goofy Golf Fundraiser. Melanie and Lou discussed designing a cardboard set up and will take care of that together.
